

Guarantee, labels, standards and shade card

1 finish for wood veneer desktops

Product description

Desktops

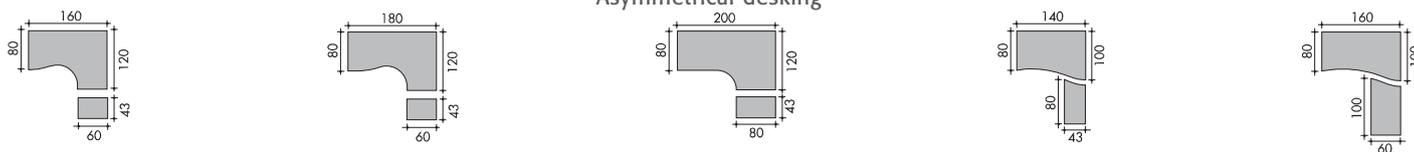

- 25 mm thick particle board, density 650 kg/m³;
- Wood "ecologically certified" by the PEFC and FSC, in recognition that all or a proportion of the timber used is sourced from sustainably managed forest. Our tops are made from material certified to FSC-STD-40-004 (vers.01);
- Particle board certified to E1 (control of formaldehyde emissions) with an emission level of 6.5 mg HCNO/100 mg and compliant with standards EN 120/92 and NF EN 717-2;
- Board is covered with a sheet of decorative monochrome or wood effect paper - the finish. During the High Resistance Melamine process, this finish is impregnated with a duroplastic resin to provide maximum protection, an industrial process which ensures that the furniture achieves outstanding results in terms of resistance to scratching and abrasion, thereby meeting the EN438 standard. An additional sheet of paper applied to the underside of tops to provide balance is also impregnated with duroplastic resin;
- Edges protected by a 2 mm thick strip of ABS (Acrylonitrile Butadiene Styrene), which is glued to the board and rounded at the top and bottom for maximum user comfort;
- Stained wood veneer tops made from 30 mm thick MDF (medium density fibre board), density 750 kg/m³, with moulded edges;
- Desktop fire safety classification: in accordance with the FD - P92-057 standard, particle board greater or equal to 18 mm in thickness is classified as M3 (combustible, moderately flammable);
- Maintenance advice: use soapy water and avoid products which contain solvents.

Structure

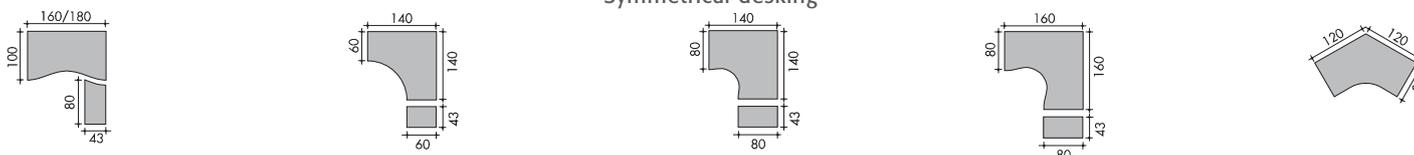

- "L" shaped legs;
- Cast aluminium bases attached by screws to the desk uprights. Uprights of curved design made from sheet steel, thickness 20/10, folded and welded into position, with lower sheet steel reinforcement bars, thickness 40/10, to link the two components together;
- Upper horizontal bar made from laser cut steel, thickness 40/10, folded and welded to the uprights;
- Support legs and legs for meeting tables of triangular design, made from sheet steel, thickness 12/10, curved, folded and welded around a tube measuring \varnothing 35 x 2 mm;
- Structure:
 - Modesty panel, in folded sheet steel, thickness 8/10. Height 35 cm;
 - Open-sided beam, in folded sheet steel, thickness 12/10. Height 14 cm;
 - Modesty panel + swivel-action cable trough on the visitors' side of the desk;
- Standard legs, fixed height 72 cm, or height-adjustable legs, adjustable from 62 to 86 cm at 2 cm intervals;
- Cable management:
 - Vertical: within the legs. Wires are accessed from the inside via a removable, folded sheet steel cover, which comes complete with pre-cuttable ABS cable port at the bottom end;
 - Horizontal: via the upturned lower edge of the modesty panel, D. 21 x H. 23 mm;
 - Within the open-sided beam on the user's side, usable dimensions: D. 60 x H. 130 mm;
 - Via the swivel-action cable trough: movement of the trough is controlled by a central lever screwed to the underside of the desktop.
- Quality label: designed and manufactured in compliance with the requirements of standard EN 527-1/2/3.

The Range

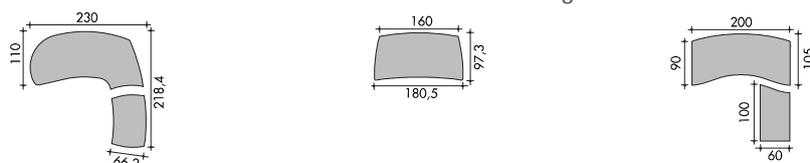

Asymmetrical desking

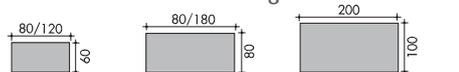

Symmetrical desking

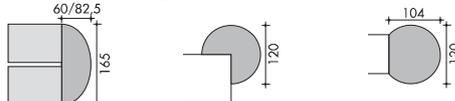

De luxe wood veneer desking

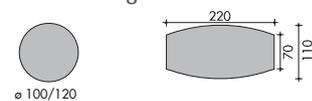

Standard desking
