Introducing Deck, a timeless bench table and seating collection that boasts effortless sophistication and stylish simplicity. With its crisp, clean lines and distinctive finishes, the Deck collections' versatility can perfectly fulfil modern workplace requirements.

The Deck collection is an ideal choice for office and leisure environments - whether used for hot-desking, corporate meetings or communal dining. Its flexibility facilitates individual work and collaborative discussions, while making it even easier for employees and executives alike to move seamlessly from one activity or project to another. The Deck collection saves time and space when both are limited - it is the obvious choice for any working environment.

This refined collection can be extensively customised to fulfil the needs of your space and it is available in a range of specifications. These include options for sitting or standing height models, various end frame materials and customisable unit dimensions. The Deck collection makes use of your entire landscape and can be offered in an almost limitless combination of surface finishes. In fact, each bench or table unit can be created to your preferences or made to satisfy unique corporate requirements.

Whether you'd like a classic wood effect, vibrant block colours or funky patterns this family of furniture will help you to make a statement and enhance every inch of your space.

Deck Mitred is the premium product within this collection. It incorporates traditional joinery skills and hand-applied finishes. Choose from an array of laminate finishes that can be uniform or specified as two-toned, single colours or patterned relief. These variations enable the model to complement its surroundings, stirring emotions and adding a sense of theatre.

We certainly believe in style and finesse, but functionality and form are also essential. Each Deck Inset model shares the same design DNA as the rest of the collection, but acknowledges the fact that there are times when users need to sit at the ends of the benches as well as at the sides. The inset panels included in these models allow for this by providing sitting or standing space at both ends of the work surface, while matching their flush panel ended counterparts in finish and style.

Deck Poseur Height MFC

The Deck Steel model combines the features of the panel ended and inset models, by allowing users to sit all along and around the work surface, without the structure impinging on their leg space. Its lightweight yet robust frame is fully welded and offers an additional opportunity for users to introduce metallic colours into the working landscape, while remaining cohesive with adjacent furniture from different ranges. Deck Steel frames boast minimalistic style and clear air circulation within open-plan areas. Each model is available with sitting and standing height work surfaces, with matching bench seating.
