I cavi sono alloggiati in un'ampia vaschetta e possono essere bloccati con fascette che si inseriscono in apposite fessure.

The cables are collected in a wide tray and can be locked with clamps inserted in special slots.

Les câbles sont logés dans un grand bac et peuvent être bloqués avec des colliers qui s'insèrent dans des fentes prévues à cet effet.

Die Kabel sind in einem großen Behälter enthalten und können durch Klemmen, durch vorgesehene Schlitzze, blockiert werden.

Los cables están alojados en una amplia bandeja y pueden bloquearse con bridas, que se introducen en unas ranuras.

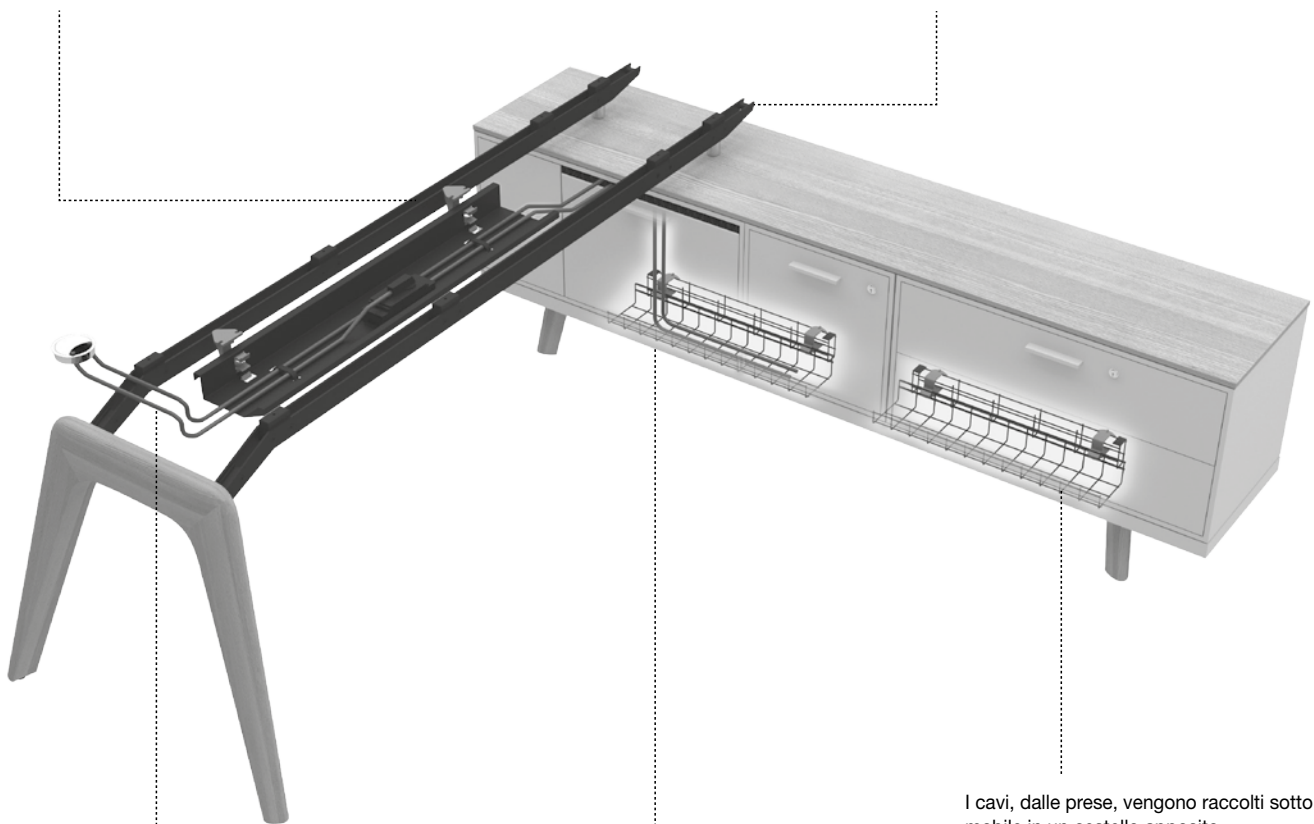

Lo spazio permette il passaggio dei cavi ad anta chiusa. La pressione esercitata dalle spazzole tiene in posizione i cavi.

The recess allows the passage of cables even with the door closed. The pressure exerted by the brushes maintains the cables in position.

L'espace permet le passage des câbles quand la porte est fermée. La pression exercée par les brosses maintient les câbles à leur emplacement.

Der ausreichende Raum ermöglicht die Kabeldurchführung bei geschlossener Tür. Der von den Bürsten ausgeübte Druck hält die Kabel in Position.

El espacio permite el paso de los cables con la puerta cerrada. La presión ejercida por los cepillos mantiene los cables en su posición.

I cavi sono resi disponibili su piano attraverso appositi fori con sistema passacavi.

Cables are available on the top through cable grommet holes.

Les câbles arrivent sur le plateau à travers des trous avec un système passe-câbles.

Die Kabel stehen durch das Kabeldurchlasssystem auf der Tischplatte zur Verfügung.

Los cables resultan disponibles en el sobre gracias a unos orificios con sistema pasacables.

I cavi passano attraverso il mobile transitando da appositi passacavi.

Cables pass through the recesses within the piece of furniture.

Les câbles transitent dans des espaces situés à l'intérieur du meuble.

Die Kabel werden innerhalb des Schrankes geführt.

Los cables se extienden a lo largo de los espacios obtenidos en el interior del mueble.

I cavi, dalle prese, vengono raccolti sotto il mobile in un cestello apposito.

The cables are collected underneath the piece of furniture in a special tray.

À partir des prises, les câbles sont rassemblés sous le meuble dans un panier prévu pour cela.

Die Kabel werden von den Steckdosen unter dem Möbel in einem geeigneten Korb positioniert.

Los cables de las tomas de corriente se recogen debajo del mueble en una cesta.

Descrizioni tecniche

PIANI LEGNO MDF IMPIALLACCIATO:realizzati in mdf da 30 mm. di spessore, rivestiti in entrambi i lati con impiallacciatura di legno spess. 0,6mm e bordati perimetralmente con massello di legno spess. 1 mm. arrotondato con raggio 2 mm. I piani hanno il perimetro rastremato e smussato. La verniciatura è realizzata con tinta all'acqua e verniciatura finale acrilica trasparente oppure laccato con finitura a poro aperto. Il passaggio dei cavi è consentito da tappo passacavi cromato avente sezione 80 mm. alloggiato sul piano (optional). I piani dei tavoli da riunione possono essere sagomati per l'alloggiamento di scatole porta prese a scomparsa con sportello apribile longitudinalmente su entrambi i lati dotato di fessura per l'uscita cavi. Lo sportello è rifinito in legno con la stessa impiallacciatura e lo stesso colore del piano. Sono disponibili 2 dimensioni con piano intarsiato, realizzato tramite taglio di precisione ed incollaggio ad incastro dell'impiallacciatura con il senso della vena opposta.

TAVOLI RIUNIONE IN PELLE:realizzati in mdf da 28 mm. di spessore, rivestiti in entrambi i lati con pelle o pelle ecologica delicata e morbida al tatto. I piani hanno il perimetro rastremato e smussato. I piani in legno centrali possono essere sagomati per l'alloggiamento di scatole porta prese a scomparsa con sportello apribile longitudinalmente su entrambi i lati dotato di fessura per l'uscita cavi. Lo sportello è rifinito in legno con la stessa impiallacciatura e lo stesso colore del piano centrale.

TRAVI DI SOSTEGNO E COLLEGAMENTO PER SCRIVANIE E TAVOLI DA RIUNIONE LEGNO E PELLE:nella versione con piani in legno o pelle le travi sono costituite da 2 coppie di profili in lamiera d'acciaio avente 5 mm. di spessore sagomate al laser. Verniciatura a polvere epossidica colore nero opaco. Ogni coppia di esse è tenuta assieme da dei distanzianti metallici avvitati tra loro. Le travi sono agganciate alle staffe metalliche cromate già montate sulle gambe. Nel caso in cui le travi metalliche appoggino su l'elemento laterale, l'aggancio avverrà mediante cilindretti metallici cromati della sezione di 32x35 mm. di H.

PIANI SCRIVANIE E TAVOLI RIUNIONE-IN VETRO:realizzati in vetro temperato trasparente o fumé dello spessore di 12 mm. Perimetro a filo lucido smussato. I piani sono ancorati alle travi metalliche e cromate sottostanti mediante distanziali metallici di forma cilindrica da 32x35 mm h. Dotazione opzionale di passacavi cromato da 80 mm di diametro.

TRAVI DI SOSTEGNO E COLLEGAMENTO PER SCRIVANIE E TAVOLI DA RIUNIONE VETRO: Nella versione con piani in vetro sono costituite da 2 coppie di profili realizzati in lamiera d'acciaio avente 5 mm. di spessore sagomate al laser. Le travi sono cromate e collegate con distanziali in legno massello verniciato dello stesso colore della gamba, aventi la sezione di 43 x 35 mm. Nel caso in cui le travi metalliche appoggino su l'elemento laterale, l'aggancio avverrà mediante cilindretti metallici cromati della sezione di 32 x 35 mm. di H. Le travi sono agganciate alle staffe metalliche cromate di collegamento già montate sulle gambe.

GAMBE DELLE SCRIVANIE E DEI TAVOLI RIUNIONE:realizzate in massello di legno stondate, levigate e verniciate a poro aperto previa tinteggiatura ad acqua. Di forma a cavalletto e spessore 53 mm, presentano una dimensione di 800 x 690 mm h. Alla base è presente un piedino regolabile di 6 mm. Nei due alloggiamenti circolari interni della gamba, sono montate delle staffe metalliche cromate per il collegamento alle travi.

MODULI DI SERVIZIO E CREDENZE:realizzati con scocche montate in truciolare melaminico certificato E1, spessore 18mm. oppure con finitura laccato poliuretano vari colori a scelta. I frontali spessore 18 mm. possono essere in melaminico, laccati o rivestiti in entrambi i lati con impiallacciatura di legno spess. 6mm e bordati perimetralmente con massello di legno spess. 1 mm. arrotondato con raggio 2 mm. I moduli scocche di diverse dimensioni sono montati su podio in melaminico avente 38 mm. di spessore della stessa finitura delle scocche. Nei moduli di servizio sotto scrivania è consentito il transito ed il contenimento dei cavi elettrici ed informatici sotto al podio mediante l'utilizzo di cestelli passacavi ispezionabili. Il podio è sostenuto da piedi in legno massello h. 170 mm. Dotazione di piedino regolabile. Il top spessore 12 mm. ha come finiture il melaminico, il laccato poliuretano o impiallacciato legno.

MODESTY PANEL:sono realizzate in truciolare da 18 mm. impiallacciato come i piani della scrivania e sono fissate alle travi per mezzo di staffe di collegamento metalliche colore nero

Technical descriptions

MDF VENEERED TOPS:made of 30 mm thick MDF, faced on both sides with 0.6 mm thick wood veneer and edged with 1 mm rounded solid wood with 2 mm radius. The tops have a tapered and rounded edge. The painting is made with colored water and final transparent coat or lacquered open pore finish. The top is equipped with a 80 mm grommet cable hole (optional). The conference tabletops can be shaped to house recessed socket boxes with lid openable longitudinally in both directions equipped with cable hole. The door has the same finish veneer and the same colour as the top. The door is finished in wood veneer with the same color and the same surface. There are 2 sizes available with an veneer inlaid top, made by precision cutting and interlocking gluing of the veneer with the direction of the opposite vein.

LEATHER-UPHOLSTERED CONFERENCE TABLES:made of 28 mm thick MDF, faced on both sides with soft and delicate leather or eco-leather. The tops have a tapered and rounded edge. The central wood panels can be shaped to house recessed socket boxes with lid openable longitudinally in both directions equipped with cable hole. The door has the same finish veneer and the same colour as the central panel.

SUPPORTING AND CONNECTING PEDESTALS FOR DESKS AND LEATHER-WOOD CONFERENCE TABLES:In the version with wood or leather-upholstered tops, the pedestals comprise 2 pairs of 5 mm thick laser-cut steel sheet profile s. Coated with matt black epoxy powder. Each pair is fastened through metal spacers screwed to one another. The pedestals are fastened to the chrome-plated metal supports already installed on the legs. Where the metal pedestals rest on a side element, they're fastened through 32 x 35 mm h chrome-plated metal cylinders.

GLASS DESKTOPS AND CONFERENCE TABLES:made of 12 mm thick clear tempered glass or transparent smoke grey. Rounded flush clear edge. The tops are fastened to the chrome-plated metal pedestals underneath through 32 x 35 mm h cylinder metal spacers. Optional 80 mm diameter chrome-plated grommet cable hole.

SUPPORTING AND CONNECTING BEAMS FOR DESKS AND GLASS CONFERENCE TABLES: In the version with glass tops, the pedestals comprise 2 pairs of 5 mm thick laser-cut steel sheet profiles. The chrome-plated pedestals are connected with 43 x 35 mm solid wood spacers with the same colour as the leg. Where the metal pedestals rest on a side element, they're fastened through 32 x 35 mm h chrome-plated metal cylinders. The pedestals are fastened to the chrome-plated metal supports already installed on the legs.

LEGS FOR DESKS AND CONFERENCE TABLES:solid wood rounded and smooth legs, with waterbased coating and clear open-pore finishing. 53 mm thick, 800 x 690 mm h tripod legs. The base features a 6 mm adjustable foot. The two rounded slots within the leg feature chrome-plated metal supports to fasten the pedestals.

SERVICE CABINETS AND CUPBOARDS:shell made of 18 mm melamine veneer, E1 certification, or with polyurethane lacquered finishing, various colours. The 18 mm front panels can be made of melamine, lacquered or faced on both sides with 6 mm wood veneer and edged with 1 mm rounded solid wood with 2 mm radius. The shell modules with different sizes are installed on a 38 mm thick melamine base with the same finish as the shells. The service cabinets for installation underneath the desk feature cable trays to house electric and IT cables underneath the service cabinets' top. The top is supported by 170 mm h solid wood feet with the same finish as the desk legs. Equipped with 6 mm adjustable foot. The 12 mm top can be finished with melamine polyurethane lacquered wood or wood veneer. The 12 mm thick top has a white melamine, polyurethane lacquer or veneer finish.

MODESTY PANEL:made of 18 mm chipboard panel, veneered as the desktop, and fastened to the pedestals through black metal connection brackets.

FG: La finitura ferro grezzo "FG" risalta la natura "industriale" del metallo grazie ad un trattamento protettivo trasparente. Differenze di tonalità, abrasioni, striature e saldature sono tipici della materia prima stessa e delle successive lavorazioni e sono tra gli elementi caratterizzanti del prodotto e per questo non contestabili.
FG: The raw steel finish "FG" emphasizes the "industrial" nature of the metal thanks to a transparent protective treatment. Differences in shades, abrasions, stripes and welds are typical of the raw material and subsequent processes, and are among the characteristic elements of the product, therefore not claimable.
FG: La finition en métal brut "FG" démarque la nature "industrielle" du Métal grâce à un traitement avec une protection transparent. Les différences dans les nuances, les abrasions et les soudures sont typiques de la matière première et des ultérieures process de production et font partie des éléments caractéristiques du produit et donc non contestables.
FG: Das rohes Metall-Finish "FG" sticht besonders hervor der "Industriellen" Natur der Metall durch einer Transparenten Schutz Behandlung. Unterschiede in Farbton, Abrieb, Streifen und Schweissungen sind typisch für den Rohstoff und die nachfolgenden Prozesse und gehören zu den charakteristischen Elementen des Produkts und daher sind nicht anfechtbar.
FG: El acabado de hierro bruto "FG" destaca la naturaleza "industrial" del Metal gracias a un tratamiento protector transparente. Las diferencias en los tonos, abrasiones, rayas y soldaduras son típicas de la materia prima y los procesos posteriores y se encuentran entre los elementos característicos del producto y, por lo tanto, es indiscutible.
