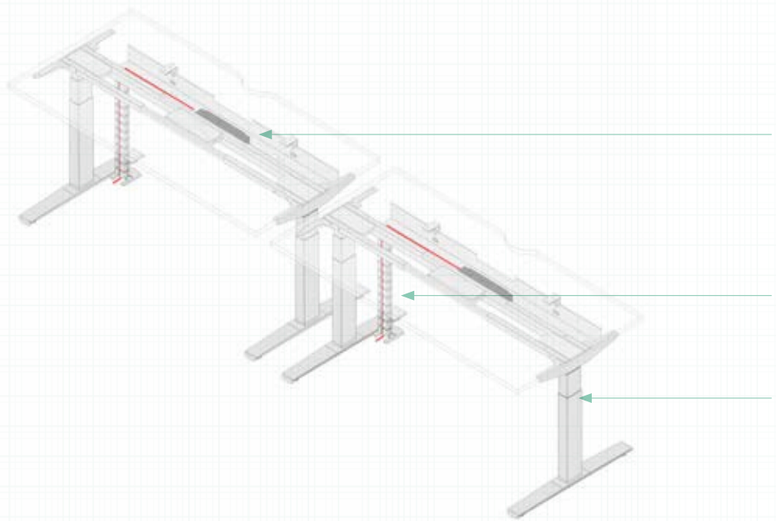
(Comprising of two brackets)
(Desk mounted screens only)

HEIGHT ADJUSTABLE DESK – Product Detail

SINGLE DESK

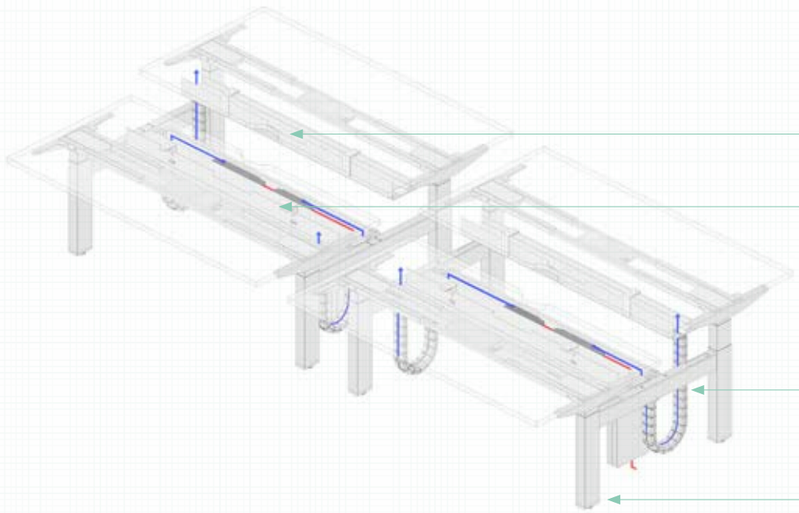


Single Cable Tray
Cable Trays are available to manage power options.

Cable Riser
An optional cable riser is available to manage power from the floor to the upper cable tray.

Single Desk Frame
A powder coated welded framework with height adjustable columns.

BACK TO BACK BENCH



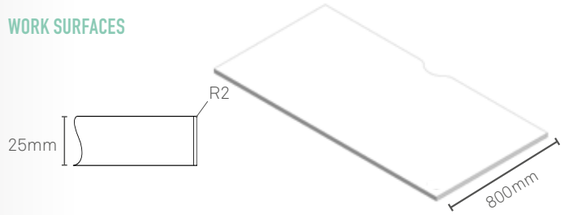
Single Cable Tray
Cable Trays are available to manage power options.

Trough
Included with all back to back benches. Fixed to the underside of the frame to manage power and data.

Cable Riser
An optional cable riser is available to manage power from the lower cable trough to the upper cable tray or optional desktop power.

Bench Frame
A powder coated welded framework with height adjustable columns.

WORK SURFACES



Freeway height adjustable tops are available in 800mm depth and widths of: 1200, 1400, 1600, 1800 and 2000mm.

Tops are available in MFC and have a central scallop at the rear for cable access.

The electric height adjustable switch is located underneath the desk top.

On back to back benches two tops are supplied.

FRAMEWORK

Single Electric Frame
Electric desks have a height adjustment of 650mm- 1300mm.

Back to Back Electric Frame
Electric benches have a height adjustment of 620mm- 1270mm.

CABLE MANAGEMENT

Back to Back Bench Trough
The cable trough is mounted between the lower frame rails of the desk. The trough is the entry point for mains power and data in to the desk and provides a total enclosure for power blocks and plugs.

Cable Trough covers are attached on top of the trough to conceal power and data cables and plugs while also providing protection for the enclosure. These slide forward to allow access

*Not available for single height adjustable desking

Optional cable trays are available and hang underneath the desktop.

These allow for power blocks to be laid inside and cables fixed in place.

This improves safety and keeps the under desk space tidy.

An optional Vertical Cable Spine is available to allow power and data to be taken from the floor to the cable trough. The chain fixes to the end of the cable trough to ensure a tidy transfer of cables. Optional flexible plastic cable spines are available to provide a secure way to manage power and data cabling from the trough up to the cable tray.

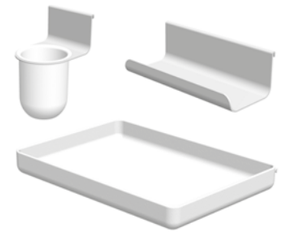
SCREENS

Screens are available to divide up benches and house accessories.

The screens are fixed to the back to back height adjustable bench frame with metal brackets.

Fabric, MFC and Acrylic screen options are available.

Desk top mounted screens are also available for a single desk.



A range of plastic accessories are available to either hang from screens or storage tool rails. These include a pen pot, pen tray and paper tray.
